

Community Resources

Our Mission

To provide a **BRIGHTER** future for children diagnosed with ASD using the scientifically validated principles of ABA. Through Individualized educational programs and comprehensive behavioral interventions, CAS passionately strives to see that each and every child reaches his or her maximum potential.

We understand it can be challenging.

We are here to help!

We understand that each child has unique needs and are always interested in learning more.

What is Applied Behavior Analysis?

Applied Behavior Analysis (ABA) is a science on understanding and improving human behavior by discovering environmental variables that influence behavior

What Makes ABA Effective?

ABA lies in the foundation of scientific research that has been conducted in laboratories but also in natural environments.

Data is constantly being collected and reviewed on clients to evaluate the effectiveness of treatment.

ABA treatment is individualized for each client

ABA Lingo

Board Certified Behavior Analyst. (BCBA)	Board Certified Assistant Behavior Analyst. (BCaBA)	Registered Behavior Technician (RBT)
Master's level clinician with training and supervision working with children with autism.	Bachelor's level clinician who has completed additional coursework and training in working with children with autism. Work under the supervision of a BCBA	Provide direct treatment and support social skills groups. Completed 40 hours of training, exhibited competency and passed the RBT exam.
